PREFACE

Furnished by N. B. ReMine,
Secretary Bristol Board of Trade, Bristol, Va-Tenn.

Population U. S. Censor—1910:

Bristol, Va.	6,247
Bristol, Tenn.	7,148
Total	13,395

Bristol, Tenn.-Va., a city, including suburban districts, of more than 20,000 population, is one city in two states, with population almost equally divided on opposite sides of the state line.

It was here in the course of the general movement southward and westward in the development of our great country that the principal line of railway through Virginia met in its construction a similar line through Tennessee. These two lines of transportation, now among the most powerful and efficient in the country, have maintained Bristol as a terminal point from the days of the original construction in 1856. Thus as a terminal point for the Norfolk and Western Railway system and the far-reaching lines of the Southern Railway system, with the important connections of each, Bristol has enjoyed transportation facilities ample to guarantee her continuous opportunities as a commercial and manufacturing center.

Bristol enjoys the reputation of being the center of widely advertised good roads activity and is rapidly becoming the headquarters for the good roads movement in the Central South. All good roads projected in the central section of the South lead to Bristol. Bristol is the common point for all tourists over the roads of this section, on account of the road improvement throughout this section.

These advantages, coupled with an ideal climate, have been augmented by reason of the vast natural wealth of the entire region. By the construction of branch lines of railway, including the lines of the Virginia and Southwestern, Bristol has not only gained additional trunk line connections, but has been put in direct touch with the vast coal deposits of Virginia to the immediate

northwest, the iron and manganese deposits of upper East Tennessee and Western North Carolina, vast timber areas in all directions, including choice hardwood boundaries, extensive clay, silica and mineral deposits, a rich agricultural and grazing territory, choice horticultural areas—all offering abundant opportunities for capital and development. Not only this, but Bristol has for the same reason enjoyed traffic facilities and freight rates that have in the main placed her in easy reach of the larger cities and the most promising markets.

Bristol has not failed to take advantage of these opportunities, but has steadily forged ahead in proportion to her population and wealth, until she has gained a position of no mean proportions among the more active and progressive business communities of the South. Her history has been free from the "boom" element, and her growth steady and substantial. Her business men are men of conservative disposition, and frank and liberal in their dealings. Most of her leading business men began at the bottom of the ladder with little or no capital, but with the energy and integrity so essential to true American life.

The principal commercial and industrial firms did a business last year of about \$17,000,000. This record has gained steadily from year to year, and the postoffice earnings and bank deposits have gained in similar fashion.

Bristol's public and civic improvements have advanced with like spirit, while her churches, public schools and colleges have taken rank with the best in the South. Investments in schools and colleges now aggregate more than \$700,000, including new college plants now in process of erection, and new central high school buildings recently completed. Church properties have gained with equal speed, and now practically every denomination is represented with a handsome, modern edifice.

The social, religious and educational opportunities are unexcelled in any southern community.

Good people and outside capital are ever welcome, and men of enterprise and energy seeking opportunities in the New South in this its great era of modern development, will be given a cordial welcome here, with every assurance of fair and cordial treatment in whatever line of development they may engage.

Th Bristol Board of Trade, representing the business and civic interest of the community, will gladly mail information to those in quest of new and inviting opportunities.

BRISTOL BOARD OF TRADE,
N. B. ReMine, Secretary.

City Directory Don'ts

DON'T put your Directory in an out of the way place, but keep it in a place that your customers can see and use it without stopping some ONE to find it.

DON'T think that a Directory is paying for itself unless you use it more than an idle clerk can make you money.

DON'T look mad when a customer asks to look at your Directory.

DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow again and if all were borrowers, when would the next Directory be published?

DON'T forget that an up-to-date city must have a Directory and a merchant that has no DIRECTORY is what?

DON'T forget that a Directory borrower to-day will forget to return it to-morrow and you call him what?

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for. What do you call him?

When a man advertises his business it is conclusive that he is not ashamed of it, especially if he does his advertising in the Wilmington City Directory.

NOW THAT THE NEW DIRECTORY IS OUT

TAKE THE OLD DIRECTORY HOME

YOUR WIFE

will find the names and addresses of many friends,
She will tell you that the Directory is just the thing
for invitation lists.

YOUR DAUGHTER

will be glad to have ready information on how to
get to strange addresses, Church Data, Club and
Organization Statistics, Postal Regulations, Etc.

YOUR SON

will find it both interesting and instructive. When
he grows up he will know where to quickly find in-
formation business men need.

YOUR MOTHER

will read the carefully prepared introduction and
marvel at the way the city is changing.

YOU

may use it yourself to settle the identity of persons
mentioned in newspapers; discussions that come up
in the homes, and for many other purposes. Try it.
