TRADE! You like

to patronize those concerns who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

THE PUBLISHERS

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1938 edition of the Bristol City Directory. Three new features mark this edition. They are the designation of tenant-owned homes, the designation of the number of minor children in each family, and the Numerical Telephone Directory.

Confidence in the growth of Bristol's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Bristol to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Bristol Directory will fulfill its mission as a source of authentic information pertaining to the city.

Five Major Departments

The five major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 17 to 382, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Bristol, and the name, official personnel, nature and address of each firm and corporation in the city. A new feature of this section is the designation of the number of minor children in each family.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 385 to 449. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. A new feature of this section is the designation of tenant-owned homes.

THE NUMERICAL TELEPHONE DIRECTORY, a new feature, on blue paper, extends from page 453 to page 477.

THE BUYERS' GUIDE, beginning opposite page 480 and separately paged from 1 to 6, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Bristol. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with

sources of supply. In a progressive community like Bristol, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 487 to 529, on white paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Bristol.

The Bristol Directory Library

Through the courtesy of the publishers of the Bristol City Directory, a Directory Library is maintained in the offices of the Bristol Chamber of Commerce, for free reference by the general public. This is one of more than 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

Bristol, Virginia-Tennessee, is located on the state line. It is, in fact, two cities, one in Virginia and one in Tennessee. Its main business thoroughfare is the state line.

Bristol is in the valley midway between the Blue Ridge and the Cumberland Mountains. This valley is drained by the rivers which ultimately form the Tennessee River. Its elevation above sea level ranges from 1,700 to 2,000 feet, while mountains on either side of the valley have an elevation of from 3,000 to 5,000 feet. Bristol's mean annual temperature is 61.6 degrees, ranging from an average of 78 de-

grees in July to an average of 43.3 degrees in January. The annual rainfall ranges from 42 to 48 inches. The average relative humidity is about 63%.

Due to absence of climatic extremes, its elevation above sea level, and its beautiful surroundings, Bristol's well-known slogan, "A Good Place to Live," is certainly appropriate.

Bristol's water supply is especially good. The supply for the Virginia side is obtained from mountain springs. The supply for the Tennessee side is obtained from the Holston River at a point where soft water is available. No city in the world has a better, purer or more satisfactory water supply than this city.

Virginia-Intermont College

The city's electrical power supply is derived from hydro-electric plants on nearby rivers, and is abundant and cheap. There can be no question as to the future cost and supply of electrical energy, inasmuch as it is located at the top of the Tennessee Valley, which is being developed by the Tennessee Valley Authority with the end in view that electricity will be plentiful and cheap.

The main lines of the Norfolk & Western Railroad, extending eastward to Norfolk, and of the Southern Railway, extending southwest to New Orleans, meet at the state line in Bristol. These two railroads, provide Bristol with splendid freight and passenger service in all directions. Through Pullman trains are provided from New Orleans to New York and Memphis to New York via Roanoke, Washington and Philadelphia.

Good hard-surfaced highways radiate in all directions. U. S. Highway No. 11, forming part of the "Broadway of America," is the principal paved road serving Bristol. U. S. Highway No. 58 leads to the northwest to Cumberland Gap and on into Kentucky. Tenn. No. 19 leads through Johnson City and Erwin, over the Blue Ridge to Asheville, N. C. Highway No. 421, a beautiful road, leads to the South over the Holston, Iron and Blue Ridge mountains.

The historic spots and scenic beauty in the vicinity of Bristol make it a very popular place for tourists travelling from the North to the South.

The rhododendron, a beautiful flower which grows in profusion in nearby mountains, is in full bloom between June 15 and July 1. The Cherokee National Forest Reserve, embracing about one-quarter million acres of forest, is in close proximity to Bristol. Not far away to the southwest is

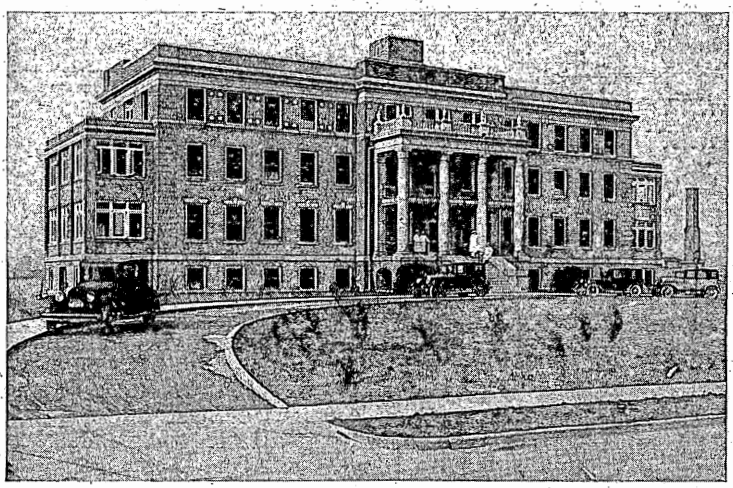

the Great Smoky Mountain National Park, rapidly developing into one of America's most attractive and scenic playgrounds.

Bristol is an important manufacturing, wholesale and retail center. Its products include such items as leather, paper, wood pulp, glass, drugs and chemicals, mine cars, overalls, knit underwear, dresses, hosiery, dairy products, candy, veneer, structural steel, thread, paper boxes, caskets, trailers, mattresses and all kinds of building material.

Bristol is also an important educational center. Sullins College and Virginia-Intermont College each accommodate in the neighborhood of 400 girls. King College, formerly a boys' school, now co-educational, is a splendid educational institution of many years' standing.

Rivers and mountains near the city provide many beautiful spots that are used for camp sites. Camp Cherokee, for boys, and Camp Sequoya, for girls, are located nearby.

Bristol is a civic-minded city, such organizations as Rotary, Kiwanis, Lions, Civitan, Y. M. C. A., Salvation Army, Boy Scouts, and Chamber of Commerce are all active in community work.

King's Mountain Memorial Hospital

The natural resources of Bristol and vicinity may be considered to comprise its agricultural possibilities, its supply of coal, silica sand and hardwood lumber and its rich mineral deposits.

The local Broadcasting Station WOPI specializes in native mountain music and song.

The population is to a great extent pure Anglo-Saxon, and less than one percent is foreign-born.

Bristol's climatic conditions, transportation facilities, labor advantages and supply of raw material make it especially advantageous for manufacturing.

Detailed information regarding Bristol and its surrounding territory will be furnished gladly by the Bristol Chamber of Commerce.

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

USE the Buyers' Guide Section to Find the Best Source of Supply for Your Needs

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1938

Copyright, 1938, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

***Between two intersecting streets designate there are no houses between them on that particular street.

The symbol ⓞ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

(c) denotes colored.

IF YOU WOULD FIND WHAT YOU WISH TO BUY

U S E The Alphabetical Section to get Complete Information on a person or firm

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

When You Want to Know:

—where a person lives.

—what his occupation is.

—who lives at a certain number on a street.

—where a street is located.

—the correct spelling of a name.

—the officers of a corporation.

—the partners in a firm.

—the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.

—you can quickly find the answer in the City Directory.
