50 years OF SERVING SOUTHERN BUSINESS

THE year 1946 is the fiftieth Anniversary for the Hill Directory Co., Inc. Half of a century of Service to cities and industries of the South.

WE HAVE grown a lot in fifty years, and we plan to keep on growing. We feel younger than ever. Our real future still is ahead of us . . . because the real future of our Country lies ahead.

IN 1896 J. L. Hill, the Founder of this Company, laid down a fundamental policy of Good Service . . . Honest Service. That policy still is *basic* with us. Our growth in experience, in skill, in size, came about only because we built on that solid old foundation of Service.

SO, ON OUR fiftieth Anniversary, we thank you for doing business with us . . . for guiding us along the way. We want any and all of our Services to be even more valuable to you in the years to come . . . and we pledge our best efforts to that end.

INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1946 edition of the Bristol, Va.-Tenn., City Directory. A new feature, the Honor Roll, marks this edition.

Confidence in the growth of Bristol's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Bristol to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Bristol Directory will fulfill its mission as a source of authentic information pertaining to the city.

Six Major Departments

The six major departments are arranged in the following order:—

THE HONOR ROLL, a new feature, in the preface of the Directory, is an alphabetical list of the Bristol commercial, industrial and professional concerns that have demonstrated their confidence in the City Directory as an advertising medium, and thereby insured its regular publication.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 29 to 620, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Bristol, and the name, official personnel, nature and address of each firm and corporation in the city. Special features of this section are the designation of the number of children under Directory-listing age in each household and the listing of telephone numbers.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 112, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Bristol. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Bristol, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 733 to 802, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature

constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 805 to 888. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, starts opposite page 888.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Bristol. There are more than 500 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which the Hill Directory Co. is a member.

Unique Location

BRISTOL, VA.-TENN., is the largest community in the U. S. located directly upon a state line, where the line between the two states and the two cities which make up the community, lies in the center of its main business street.

The official 1940 U. S. Census showed a population of 23,772 within the corporate limits, and the present population of Bristol and suburbs is estimated at 29,500.

History

LAND: Bristol had its beginning in Colonial days. The early name for the spot was Sapling Grove. In the surveyor's book of Augusta County, Va., is a map and plat of a survey bearing the legend: "Surveyed for John Tayloe, of Richmond County, 1,946 acres on Shallow Creek of middle fork of Indian River at a place called Sapling Grove, Feb. 22, 1749."

Natural Tunnel, Near Bristol

Sapling Grove, is now Bristol, Shallow Creek is now Beaver Creek, and Indian River is now Holston River. Augusta County then included western Virginia, Tennessee, Kentucky and Ohio.

The Sapling Grove tract passed from John Tayloe to James Patton, thence in 1768 to Evan Shelby and Isaac Baker, each taking title to one half the original tract of 1,946 acres.

The Isaac Baker interest passed to his son, William, who in 1799 sold 348 acres to Col. John Goodson for \$3,000. Upon this land was laid out the town of Goodson (now Bristol), Va. It remained unincorporated until 1856.

The Evan Shelby half of the original tract passed in 1814 to Col. James King for the sum of \$10,000. In 1852, J. R. Anderson purchased 100 acres at \$100 per acre from Rev. James King, son of Col. James King.

Upon the lands of John Goodson and J. R. Anderson was laid out the town of Goodson (now Bristol), Va., and Bristol, Tenn. It was incorporated in 1856 and named after Bristol, England.

In 1771, Col. Evan Shelby built a stockade and trading post on the hill near the present site of the First Presbyterian Church. Here the frontiersmen traded their skins for powder and lead. Daniel Boone was a frequent customer of Shelby's. It was here that Shelby, Campbell and Sevier planned the campaign, resulting in the defeat of the

Abrams Falls, Near Bristol

British under Col. Ferguson at the Battle of Kings Mountain (N. C.), 1780. This battle had an important bearing on the success of Washington at Yorktown.

The valleys of the upper tributaries of the Tennessee River, such as the Holston and Watauga, provided the natural gateways for the passage of settlers moving westward. At the time of the Revolutionary War, the land in what is now southwest Virginia and east Tennessee, was well taken up. Feeling aggrieved over the lack of protection afforded by the State governments against the constant Indian forays, and fearing the National Government would

neglect them, the residents of the territory west of the Blue Ridge under the leadership of John Sevier, set up the independent state of Franklin. This movement was not recognized by either the state or Federal governments and lasted but four years, from 1785 to 1789 (See Taylor's "Historic Sullivan").

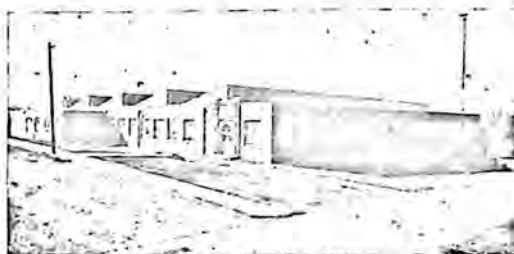

Grey Hosiery Mills, Bristol, Va.

North Carolina in 1784 and Virginia in 1786, passed acts which enabled the Federal Government to take jurisdiction over the land west of the mountains under the name of "The Territory South of the Ohio River." President Washington made Wm. Blount the first governor of the Territory. The first capitol was established at the home of Wm. Cobb, 15 miles southwest of Bristol. Kentucky was made a State in 1792, followed by Tennessee in 1796.

THE STATE LINE: When in 1663 Charles II granted to Edward, Earl of Clarendon, the lands south of Virginia, the dividing line between the Carolinas and Virginia was roughly placed at 36 degrees 30 minutes N.

This line was to run due west until it reached the "South Seas," as provided in the Virginia Charter of 1607 and the Carolina Charter of 1663. The royal grants overlapped and for over 200 years a quarrel ensued. In 1711 commissions from Virginia and North Carolina failed to agree. In 1728 a line at 36 degrees 31 minutes N. was run to the Dan River, 241 miles inland.

Bristol Weaving Mills, Bristol, Tenn.

In 1749 the survey was extended 88 miles to Steep Rock Creek. In 1779 another commission was named to extend the line still westward. Unable to locate accurately the point on Steep Rock Creek where the last survey terminated, they endeavored to locate 36 degrees 31 minutes N. latitude as a starting point. A line was then run 45 miles to Carters Valley, where a disagreement occurred and each set of commissions ran an independent line westward to the Cumberland Mountains.

The two lines paralleled each other about two miles apart. Trouble ensued, and in 1802 another set of commis-

sions was formed. Failing to agree on a starting point, they ran a new line midway between the lines previously run.

This compromise line was confirmed and adopted as the line dividing the two states by the Virginia and Tennessee legislatures in 1803. It has not been changed since, except within the city limits of Bristol.

The compromise line of 1803 ran along the north side of Main (now State) Street. In 1881 the two cities, by ordinance, conceded that for local administrative purposes, the line within the city limits should be regarded as the center of Main (now State) Street.

This act did not settle the matter. City governments do not have jurisdiction over state lines. As a result of an attempt in 1886 for final settlement of the controversy, a case was taken to the Supreme Court of the U. S. The Supreme Court confirmed the compromise of 1803 and the trouble began all over again.

Virginia Interment College, Bristol, Va.

In 1903 the State of Tennessee ceded to Virginia that part of the state lying within the city of Bristol, Tenn., and north of the center line of State Street. This settled the matter, and the brass markers seen today in the middle of State Street definitely mark the State Line.

In 1856 a railroad reached Bristol. The Atlanta, Mississippi & Ohio Railroad, now the Norfolk & Western was built in from the east, and the East Tennessee Railroad, now the Southern Railway, was built in from the west. From the very beginning of its development, Bristol has been an important trading center and has continued in this respect through all the passing years. It was not until the last years of the 19th Century that Bristol began its development as an industrial center. The first industries of importance were iron and steel furnaces and woodworking establishments. Iron was found in the surrounding hills, and the country was a vast forest of the finest hardwoods. Iron-working passed out with the development of the cheap iron-ore deposits in Michigan and Minnesota.

Bristol Today

Within 70 miles of Bristol lay a vast supply of fine bituminous coal, and this, coupled with the supply of hardwoods, resulted in the development of other industries. Today Bristol's industries are diversified and normally give employment to over 4,000 people. Its leading manufactured products consist of paper, leather, veneers, mine cars, drugs,

overalls, ladies' dresses, silk, rayon, nylon and cotton hosiery, thread, knit underwear, lumber and wood products, candy, caskets, machinery, rayon cloth, truck trailers, mirrors, sanding machines, aircraft (wood plastic), and other articles of commerce (See list of manufacturers at end of story).

Bristol early developed keen interest in education, and its public school systems are modern in every respect, with two high schools and 13 elementary schools for white students, and two high schools for colored students. It has three colleges of considerable importance. Sussins College and Virginia Intermont College, both girls' schools, each accommodate in excess of 300 boarding students and many day students. King College, established in 1867, an important junior college, is co-educational. Bristol Commercial College, a well-equipped business institution, prides itself on having successful graduates scattered the country over. These college are attended by students from all parts of the U. S. and several foreign countries.

Columbian Paper Co., Bristol, Va.

Excellent highways radiate in all directions. U. S. Highway 11 is the important highway from the Northeast to the Southwest, and makes up a part of the well-known and much-traveled, "BROADWAY OF AMERICA." U. S. Highway 421, running from Cumberland Gap, Ky., to Wilmington, N. C., is well paved and an important road. Bristol is surrounded by mountains, with an elevation up to 5,000 feet above sea level, and within easy driving distance of the city are many historic and scenic locations. Not far away is Roan Mountain, from the top of which, 6,200 feet above sea level, can be seen the most beautiful natural rhododendron gardens in America, in full bloom about June 15. Six miles northeast is Abrams Falls, located in a forest with all the beauty with which nature endowed it. Forty miles northwest in Scott County, Va., is the Natural Tunnel, one of the scenic wonders of Virginia. This tunnel must be seen to be appreciated. To the south, in the Holston Mountains, is located the Unaka National Forest, literally filled with sylvan beauty.

Bristol's climate is moderate. With an elevation of some 1,800 feet above sea level, it enjoys a summer temperature which is at all time delightful. A typical summer day might range from a temperature of 70 degrees at midnight to 86 degrees in mid-afternoon. A typical winter day might range in temperature from 31 degrees at night to 50 degrees in mid-afternoon. The annual rainfall is well distributed

1939

throughout the year, and over a period of 20 years has averaged in the neighborhood of 45 inches per year, ranging from an average low of 2.66 inches in October to 4.78 inches in March. The months of May, June and July will average above four inches.

Along the nearby rivers are many beautiful sites for camping and recreation. There are a number of well-equipped commercial camps for both boys and girls. The Boy Scouts camp in the Holston Mountains is one of the best.

The State of Tennessee has under construction a 2,000-acre State park within two miles of Bristol. According to reports, this will be one of Tennessee's best recreational areas when finished.

Bristol has a pure, abundant supply of water derived from several sources. On the Virginia side it comes from mountain springs. Bristol, Tenn., is supplied from the Holston River by a very up-to-date, modern water works built in 1936-37. In addition to its splendid railroad service and its highways, Bristol is on the Southern Transcontinental

Big Jack Mfg. Co., Bristol, Tenn.

Line of the American Airlines and Pittsburgh-Birmingham line of the Pennsylvania Central Air Lines. Its airport, recently built as a cost of over \$750,000, is of the best.

A large majority of Bristol's population is native-born. The foreign-born population is less than 1% of the total. Negro population is about 9%. The many advantages which can be had in the way of education and climatic and industrial conditions, make Bristol a desirable place of residence, and it has adopted as a slogan, "A Good Place to Live."

Bristol has three banks, with total assets aggregating nearly \$29,000,000. It has two excellent daily newspapers, morning and evening. Its postal receipts were \$323,098.80 in 1945. It has 7,383 telephones in service, a total of 7,440 electric customers, and 6,800 water customers. It has 30 churches, four theatres, a Class A hospital, a public library with 9,000 volumes, a broadcasting station, a fine municipal stadium, excellent hotels, a fine Y. M. C. A., a beautiful country club and golf course, and a swimming pool.

Bristol has a well-supported Chamber of Commerce, alive to public needs, which earnestly solicits inquiries from potential industries, tourists and people who are looking for a fine place to make their home. It gladly answers all inquiries. If you are interested in further facts regarding Bristol, write the Bristol Chamber of Commerce.
